June 5 or 6 looks good too.

I may have jumped the gun, since the training class might be May 25-28, not sure yet.

In any case -- June 5 or 6 is still an option.

Thanks,

Ray

Hi Ray,

May 25 would work great. May 26 might also work, but I'm not yet sure if I will be in the office.

Rick

Subject: Lunch on May 25 or 26?

Hi Rick and Valois,

I plan on being in Denver the week of May 22nd and will have some time to come downtown on May 25 or 26. I will have two days in between the MODFLOW and MORE 2017 conference and a PEST training class on the weekend.

Would the two of you be available either or those days? I could plan on being at the EPA building around 11 AM. If May does not work, I will be back June 5/6 for the uranium recovery workshop.

Cheers,

Ray

Hi Ray,

I lost your contact info when I changed organizations. Thanks for looking me up and thanks to Valois for passing on my new contact info.

If it wouldn't be intruding, perhaps the three of us could have lunch when you are here.

Thanks,

Rick

Hi Ray,

Glad you are coming to Denver in June! I'm not sure if I am going to the workshop yet, but would like to get together even if I don't attend.

Rick is working in the Office of Water Protection, which also houses the UIC program. So we work together fairly often.

His contact info is:

arnold.larry@epa.gov

303-312-6788

Hi Valois,

Thanks for the update. I did happen to see this through some other channels. I figured that you might be quite busy now with comments!

I heard that Rick Arnold is now with EPA – do you have his new contact info?

I plan on going to the uranium recovery workshop in June. It seems like EPA should let you go this year, given the Dewey-Burdock draft permit release. We should get together that week in any case.

Cheers,

Ray

Hi Ray,

The Dewey-Burdock draft permits were issued on March 6. Here is the link to the web site where all the documents are located.

<https://www.epa.gov/uic/administrative-record-dewey-burdock-class-iii-and-class-v-injection-well-draft-area-permits>
